- Unlimited Voice and Data Options

**Emergency Suspend Service:**

For devices used typically only in emergencies, the Government can use the Voluntary Suspend Plan to provide mobile devices during an emergency situation. Under this plan, a customer can suspend lines for up to 180 days.

Lines in emergency suspended status are charged \$10 per month, per line per month. There is no *additional* monthly rate plan charge associated with the Emergency Suspend Plan. When an emergency arises, the customer can request that AT&T provision regular services (voice, data, text, etc.) on the lines (over the air.)

**Regular Suspended Service:**

Suspended service prevents users from making and receiving calls on your wireless device, except for calling 611 to reach customer care and 911 in the event of an emergency. The DIR-SDD-1777 discounted monthly recurring rate is billed. Recurring fees accrue while the phone number is in a voluntary suspended status.
